

We've designed this to be a walking tour, with the exhibit divided across three locations on our campus. If you're interested in installing the walking tour, you can print out the three file version on our website. If you want to just install this exhibit in one location, we've also posted a single file that you can print and hang. Both options are intended to be printed as 11x17 posters. You should only need to adjust the "Location" poster in each set to accommodate your campus/organization walking tour, which is accomplishable in Adobe Acrobat!
